

"Suzette Haden Elgin combines linguistic expertise with a poet's sensibility to give us this inspiring and amusing guide to poetics, with special attention to the rewards that science fiction and fantasy provide, and the restrictions they demand. Anyone who aspires to writing fantastic poetry should read this handbook carefully."

— Joe Haldeman

The Science Fiction Poetry Association's first official book, *The Science Fiction Poetry Handbook*, was published March 1, 2005, by Sam's Dot Publishing.

Written by **Suzette Haden Elgin**, who founded the Science Fiction Poetry Association 27 years ago, the book breaks down the language of poetry into its component parts and explains how to make a poem work from the inside out. It also moves beyond craft to talk about selling to poetry markets and, even more interestingly, career promotion techniques, such as how to arrange and run workshops and panels.

Table of Contents (Sample)

- * Ch. 1 – Defining the Science Fiction Poem
- * Ch. 3 – Phonological Patterning: How the Poem Sounds
- * Ch. 5 – Syntactic/Semantic Patterning: How Poets Use Grammar Rules
- * Ch. 6 – Through the Old Credibility Gap [Including "Presuppositions: Even My Gnome...." and "Fifteen Ways to Presuppose Your Gnome"]
- * Ch. 7 – Marketing and Promoting Your Work
- * Ch. 9 – A Brief History of the SFPA
